3:00 PM Transforming the Service Department: 3 Insights into Achieving Happy, Profitable Customers Through Service

Presented by: Resolv Inc.

In this seminar, learn how to turn dissatisfied customers into satisfied customers and how to turn satisfied customers into raving fans.

WEDNESDAY, OCTOBER 5

10:00 AM Supercharging Your ERP System

Presented by: Dan Koszaliniski, CPA, CMA – Shareholder, Business Services - Schenck SC

Your ERP system is the backbone of your transactional data. This seminar will begin by discussing the importance of setting controls around this data to ensure its integrity. Then, we will explore the world of technology in our current fast-paced and mobile business environment and the importances of data systems that support business leaders in this ever-changing world. Today's business leaders need technology that clarifies and automatically routes workflow, and notifies them as soon as important triggers happen, no matter where they are. The seminar will conclude with discussing how to sustain these efforts through well designed business intelligence systems, web based portals, dashboarding and business performance management systems all designed to help today's business leaders to be nimble, mobile and informed.

11:00 AM Optimizing Your Manufacturing Processes with the Latest 3D Technology

Presented by: Jeff Setzer, Applications Engineer & Tim Engel, Technology Manager - Graphics Systems

Learn how the latest 3D technology and software can streamline your manufacturing capabilities to create parts faster, at a lower cost and with fewer errors. Graphics Systems will demonstrate how efficient your process could be by utilizing 3D for:

faster and more accurate designs, improved communication, easily creating tool paths, interactive technical documentation and quickly printing 3D prototypes.

NOON Sustainability Panel Discussion

Presented by: Focus on Energy

Panel members include representatives from Coating Excellence, Orion Energy, Frito Lay and Briess Industries. Moderator and President of BL3 Strategies, Bob Karnauskas, will lead the panel through a variety of timely and important discussions regarding their companies' lean and green initiatives.

2:00 PM How Automation Fits in Manufacturing

Presented by: System 3R
